FINANCE AND TRADE.

Stocks and Bonds. By Telegraph to The Times.

New York, March 24.—Governments, 3/2 higher for 43/2 per cent. coupons. Unchanged for other issues. Railway bonds, quiet, irregular, for everything except Nickel Plate, is, the total sales of which (\$682,000) were over half of the total business in all bonds traded in during the day. This stock opened at 75, rose to 76, broke to 74, and closed at 75%. The break was due to reports that steps would be taken te place the Company in the hands of a receiver. Stocks were irregular, active and feverish. The street was well supplied with rumors throughout the day, some of which, upon investigation, proved to have more or less foundation in fact. At first quotations were irregular, but the general market soon developed considerable strength, and the best prices of the day were generally in the first hour by early traders, accompanied by heavy sales By Telegraph to The Times. early traders, accompanied by heavy sales of Pacific Mail, which was believed by insiders to be 85, this stock unloading on each 'rally. The Rumors industriously circulated in the past few days to the effect that the differences between the Pacific Mail and Pacific rallroads had been the effect that the differences between the Pacific Mail and Pacific railroads had been practically settled appear to have no foundation in fact. Pacific Mail officials claim they will not consider any proposition which does not increase the subsidy, while Pacific railroad officials are equally positive in their assertions that they will not pay as niuch as heretofore. It is claimed by persons in a position to know that the next dividend will probably not be paid, the Company keeping all its money for the purpose of carrying on a fight with other railroads. After midday the market became weak, and later in the afternoon there was a heavy selling of St. Paul and Jersey Central. The strong stocks on the list are Northwestern, vanderbits and Gould stocks, the last mentioned, with the exception of Union Pacific, being very quiet. Gould is expected back to-morrow, but his friends say he will probably have but little to do with the stock market at present. The trading in St. Paul and Pacific Mail amounted to 15,000 shares, leaving less than 181,000 shares to the remainder of the list. The third most active stock was Union Pacific, which appears to have lost all friends among the old Bull party.
